

ings from Dr. June M. Johnson, National Director of Education
for a Successful 83rd National Convention
1st Virtual Convention July 22-24, 2021

*“Moving Forward with a Purpose:
Global Women Emerging with Boldness, Power and Resilience”*

It has been a pleasure serving as National Director of Education for the past two years. My sincere thanks to the National Education Committee of volunteers to do the work of screening 160 scholarship applications. Scholarship recipients will be presented during the Virtual Convention.

THE OMBUDSMEN SCHOLARSHIP given to a deserving young man.

SCHOLARSHIPS FOR GHANA STUDENTS: Interview and give scholarships to college students when entourage travels to Ghana.

Supporting educational scholarships is one of the most important goals of our organization. Your contributions provide an opportunity for African American students to earn an education with financial assistance. Financial support for students helps them to have more time to focus on their studies. Scholarship assistance also decreases the number and amount of loans that students may need to complete their education. Student loan debt especially after graduation is very stressful on future income and quality of life. I encourage each of you to remain steadfast in supporting educational scholarships through your clubs and through our National organization.

“Education is the most powerful weapon which you can use to change the world.”
